

Welcome to the Central SANG

The Central SANG is a natural green space enhanced with solid paths throughout creating an environment for cyclists, joggers, walkers, children and all who enjoy nature.

There is a yellow path marked which offers a 2.3km circular walk and takes in the beautiful heart of the wood. This route will be altered once the area in the north-east is accessible.

Footways and cycleways link to the Village Green and to the wider pedestrian and cycle network.

Please ensure you respect the environment by taking all rubbish away with you and sharing this space with humans and animals in a responsible manner.

Footway/ cycleway links to Village Green

Circular Walk (Yellow Route)
