

MINDENHURST

Construction Update

August 2021

CREATED WITH CARE BY
SKANSKA

Welcome to our monthly construction update newsletter, in which we will keep you up to date with the latest news from Mindenhurst.

Skanska is committed to helping the communities in which we work and minimising any impacts of our construction work. We want to ensure that you receive regular construction work updates and have a direct, on-site point of contact for any concerns or queries you may have.

Construction Update

- 1** A specialist contractor will be removing Japanese Knotweed from the Former RLC Museum Site located on Newfoundland Road. Whilst this is being carried out, the footpath directly in front of the museum will be closed and an alternative footpath will be in place.
 - 2** Lighting bollards will be installed to the footpath between Deepcut Bridge Road and Mindenhurst Road (located next to the church). During this time, the footpath will be closed and alternative routes to Mindenhurst Road will be via the Village Green/ Brunswick Road and the North Access Roundabout.
 - 3** Trenching will continue along Blackdown Road and Woodend Road. This is to enable the installation of new HV cables between the substation located on Deepcut Bridge Road and the substation located on Blackdown Road. During this time, there will be footpath closures in place on Woodend Road and alternatives will be provided. Access will be provided to residents' driveways for parking.
 - 4** There will be ongoing soft landscaping maintenance to the development, in particular the North Access Roundabout, the Maultway, the Village Green and Mindenhurst Road. These improvements will include planting, grass cutting, pruning, weeding and watering.
-  Surrey Wildlife Trust will continue their bat surveys across the development.

Mindenhurst Wild Week Review

As you may be aware, we held our first Wild Week last week (27th July – 1st August 2021).

What a great time we have had during Wild Week, getting closer to nature and to our amazing local wildlife. A big thank you to everyone who got involved in all the events and activities throughout the week.

We started the week with a minibeast hunt lead by Surrey Wildlife Trust, where we discovered all sorts of wonderful bugs and creatures that live in the Central SANG.

They also lead a bat walk later in the week, where the group got to see and hear Pipistrelle and Soprano bats as they flew overhead catching insects.

We have also helped identify and count local butterflies, learnt more about our native trees, and we have thoroughly enjoyed seeing the 'wild art' entries to our art competition.

Thank you to everyone who took part, and to Surrey Wildlife Trust for making the wildlife walks such a fascinating and fun experience.
